(b) Inventions and Original Works Assigned to the Company. I agree that I will make prompt written disclosure to the Company, will hold in trust for the sole right and benefit of the Company, and hereby assign to the Company all my right, title and interest in and to any ideas, inventions, original works of authorship, developments, improvements or trade secrets which I may solely or jointly conceive or reduce to practice, or cause to be conceived or reduced to practice, during the period of my employment with the Company. I recognize that this Agreement does not require assignment of any invention which qualifies fully for protection under Section 2870 of the California Labor Code (hereinafter "Section 2870"), which provides as follows:

(a) Any provision in an employment agreement which provides that an employee shall assign, or offer to assign, any of his or her rights in an invention to his or her employer shall not apply to an invention that the employee developed entirely on his or her own time without using the employer's equipment, supplies, facilities, or trade secret information except for those inventions that either:

- (1) Relate at the time of conception or reduction to practice of the invention to the employer's business, or actual or demonstrably anticipated research or development of the employer; or
- (2) Result from any work performed by the employee for the employer.

(b) To the extent a provision in an employment agreement purports to require an employee to assign an invention otherwise excluded from being required to be assigned under subdivision (a), the provision is against the public policy of this state and is unenforceable.

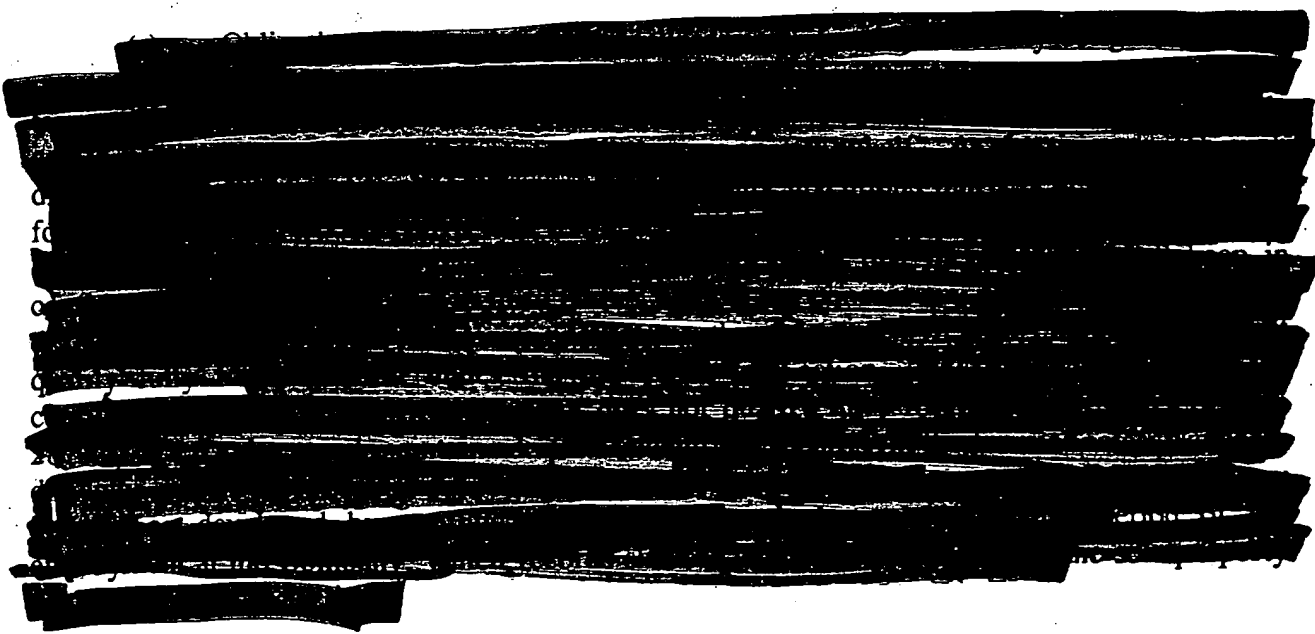

I acknowledge that all original works of authorship which are made by me (solely or jointly with others) within the scope of my employment and which are protectable by copyright are "works made for hire," as that term is defined in the United States Copyright Act (17 U.S.C., Section 101).

(c) Inventions and Original Works Assigned to the United States. I hereby assign to the United States government all my right, title and interest in and to any and all inventions, original works of authorship, developments, improvements or trade secrets whenever full title

to same is required to be in the United States by a contract between the Company and the United States or any of its agencies.

(d) Obtaining Letters Patent, Copyright Registrations and Other Protections. I will assist the Company in every proper way to obtain and enforce United States and foreign proprietary rights relating to any and all inventions, original works of authorship, developments, improvements or trade secrets of the Company in any and all countries. To that end I will execute, verify and deliver such documents and perform such other acts (including appearing as a witness) the Company may reasonably request for use in applying for, obtaining, perfecting, evidencing, sustaining and enforcing such proprietary rights and the assignment thereof. In addition, I will execute, verify and deliver assignments of such proprietary rights to the Company or its designee. My obligation to assist the Company with respect to proprietary rights in any and all countries shall continue beyond the termination of my employment, but the Company shall compensate me at a reasonable rate after my termination for the time actually spent by me at the Company's request on such assistance.

In the event the Company is unable for any reason, after reasonable effort, to secure my signature on any document needed in connection with the actions specified in the preceding paragraph, I hereby irrevocably designate and appoint the Company and its duly authorized officers and agents as my agent and attorney-in-fact, to act for and in my behalf to execute, verify and file any such documents and to do all other lawfully permitted acts to further the purposes of the preceding paragraph with the same legal force and effect as if executed by me. I hereby waive and quitclaim to the Company any and all claims of any nature whatsoever which I now or may hereafter have for infringement of any proprietary rights assigned to the Company.
